

NEBOSH National General Certificate in Occupational Health and Safety

In a nutshell

Begin your journey into health and safety management and realise your true potential with the NEBOSH General Certificate in Occupational Health and Safety. This is a comprehensive foundation course designed to benefit all learners in all stages of their health and safety careers.

The NEBOSH General Certificate in Occupational Health and Safety is one of the most widely accepted NEBOSH qualifications by employers and professional memberships in over 180 countries around the world. 87% of UK employers request the NEBOSH General Certificate course as a requirement. The Certificate is widely recognised to improve health and safety skills and environmental management. It supports managers, supervisors and staff to make improvements and gain sustainable health and safety knowledge.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

COURSE INFORMATION LEAFLET

This course is for...

...anyone over 19, living in Wales, in employment and earning less than £32,371 a year.

...anyone who requires a deeper understanding of workplace health and safety to progress their career.

Course content

Relevant to every workplace, the NEBOSH National General Certificate is ideal for managers, supervisors and anybody with health and safety management responsibilities. It's also perfect for those embarking on a health and safety career and gives a stepping stone to success.

Trusted by many prestigious organisations such as Thames Water, Kier and the Football Association, it can help to:

- Minimise workplace injuries and illness
- Boost employee wellbeing
- Demonstrate your commitment to health and safety, which can win business

Unit NG1: Management of Health and Safety

Management of Health and Safety NG1 focuses on the core fundamentals of health and safety management, underlining the strategies designed to implement a successful health and safety system in the workplace.

Unit NG2: Risk Assessment

Risk Assessment Assessment Module dedicated to the preparation and completion of the assessment.

The course consists of two assessments:

Unit NG1: Online open book exam

Unit NG2: Practical risk assessment based on a workplace environment

Entry Requirements
