CITB Site Management Safety Training Scheme (SMSTS) Level 3

In a nutshell

If you're responsible for the health and safety of everyone on-site, this course could prove invaluable. It gives you guidance on making sure all operations are carried out in accordance with current law, and looks at accountability for health, safety and welfare of employees working on site.

This course is for...

...those who want to gain up to date knowledge of current legislation and safe working practices in the built environment and construction industries

...anyone who has or is about to take on supervisory responsibilities

...understanding your legal responsibilities relevant to your work activities

Course content

This 5-day course covers the following topics:

The Health and Safety at Work Act
Construction Design and Management Regulations 2015
Site set-up
Risk assessments and method statements
Working at heights
Scaffolding
Electricity
Excavations
Demolition
Working in confined spaces
Recent changes in accepted working practice

You'll be assessed on your participation throughout the course, together with a 25-question exam including multiple choice questions and short written answers. On successful completion, you'll receive a certificate valid for 5 years.

Entry Requirements

There are no formal entry requirements.

Additional information

This course is also available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility). If you are aged over 19, living in Wales, in employment and earning less than £30,596 a year and wish to apply for this course as part of the PLA initiative please use the link below to apply:
