

BPEC BPEC Energy Efficiency Part L

In a nutshell

The Energy Efficiency (Part L) training course has been made appropriate to the requirements of plumbers/ heating installers and gas engineers that need to self-certificate their work via one of the Competent Persons Schemes (CPS) and those that carry out work in new and existing dwellings whilst satisfying the requirements for compliance.

BPEC is a specialised provider of industry recognised qualifications, assessments, training courses and learning materials.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

This course is for...

... anyone aged 19+, living in Wales and in employment. The usual salary limit of £32,371 does not apply to this course.

COURSE INFORMATION LEAFLET

... all who aim to build the knowledge and expertise to deliver net zero carbon homes.

Course content

The training materials for this course include:

Approved Document L, Volume 1
CIBSE Domestic Heating Design Guide

The Energy Efficiency (Part L) is assessed by a short multi-choice theory examination including a heat loss and radiator sizing exercise.

This course is a one day course.

Entry Requirements

Applicants should be experienced installers of gas, oil, or solid fuel domestic central heating systems.

Evidence/confirmation of experience would be required.

Additional information

Certificates are normally valid for 5 years.

If completed outside of PLA, this course will cost £225 per candidate.

Course dates will be discussed upon application.

This course is delivered at our Blaenau Gwent Learning Zone and Newport campus based on demand.

This course is run over 1 day.
