

CITB Site Supervisor Safety Training Scheme (SSSTS)

In a nutshell

If you're in a supervisory role on site, you'll need to be able to help plan and organise health and safety on site.

This course covers all relevant legislation and other aspects which affect safe working in the building and civil engineering industries. It highlights the need for risk assessment in the workplace, the implementation of the necessary control measures, and adequate communication to sustain a health and safety culture among the workforces.

This course is for...

- ...Anyone who has or is about to take on supervisory responsibilities.
- ...Introducing you to health and safety, welfare and environmental issues.
- ...Understanding your legal responsibilities relevant to your work activities.
