NILC APMG international Product Owner

In a nutshell

This accredited course addresses the principles and theory underpinning the Scrum framework, and the role of the Product Owner in it.

The course leads to the Scrum Product Owner qualification. The purpose of which is to measure whether a candidate has sufficient knowledge and understanding of Agile Principles and The 2020 Scrum Guide, provided as pre-course reading, and a grasp of some fundamental techniques required to meet their accountabilities as described in the Scrum Guide.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

Course content

This course is delivered by virtual classroom. Virtual classrooms are equivalent to face-to-face classroom courses, but delivered in an online environment.

Course Duration: 2 days

Scrum Overview
Self Organization
Agile Fundamentals
Empirical Product Development and Scrum Theory
Scrum Events
The Scrum Team and accountabilities
Artifacts and Commitment

Day 2

The Role of the Product Owner
Product Goals
Product Roadmaps
Forecasting the Product Backlog
Backlog Refinement
Product Owner examination

Entry Requirements

The Scrum Master has no prerequisites, but we recommend learners have experience of working with Agile projects, or they have attended the Agile Project Management Foundation/Practitioner training course.

Additional information

The PLA programme intends to provide quality career advice and guidance to participants before, during and after their learning.

Prior to being enrolled onto your PLA funded course, a individual learning plan will be discussed with you to ensure that the right learning has been considered.

This will include a general discussion on the following topics:

formal education or qualifications in related fields
prior experience within the industry or field
career aspirations
dedication of time required

access to internet, windows computer and webcam/microphone

This will also include specific discussion on the below areas for this course:

any prior experience with the Agile methodologies, or hold and AgilePM qualification
any experience with other Agile frameworks or methodologies (e.g., Scrum Master, Kanban, Lean, SAFe)
