

NEBOSH Environmental Management Certificate

In a nutshell

The NEBOSH Environmental Management Certificate is a globally recognised and a leading qualification on managing environmental risk.

It is ideal for those looking to develop a career in the environment and sustainability and implement effective environmental management systems in their organisation.

This course is available as part of a Personal Learning Account (PLA). PLA is an initiative from the Welsh Government which offers people the chance to access free, part-time courses with flexible and convenient learning that fits around their existing lifestyle (subject to eligibility).

This course is for you if...

...anyone over 19, living in Wales and in employment. The usual salary limit of £32,371 does not apply for this course.

COURSE INFORMATION LEAFLET

...those who are responsible for managing environmental issues as part of their work, as well as those looking to develop a career within the environment and sustainability.

...those who are managers, supervisors and employees working across industry sectors who are looking to implement effective environmental management systems into their organisation.

What will I be doing?

The NEBOSH Certificate in Environmental Management is the culmination of extensive research with environmental professionals, employers, professional bodies, and regulators. This ensures the course is both rigorous and relevant, but also achievable and practical.

Learning Outcomes:

Understand a range of environmental issues so that you can improve environmental performance and reduce harm

Work within an environmental management system and contribute to continual improvement

Recognise environmental aspects and associated impacts, and evaluate the effectiveness of existing controls

Support decision-making with ethical, legal, and financial arguments

Understand the links between your organisation's activities and wider environmental issues

Syllabus:

Unit EMC1 - Environmental management

Unit EMC2 - Assessing environmental aspects and associated impacts

The NEBOSH Environmental Management Certificate is assessed in two parts:

Unit EMC1, candidates are assessed by a written examination (to be downloaded, completed, and submitted in 24 hours), in which they must demonstrate their knowledge gained through the course.

Unit EMC2 is a practical assessment, which is carried out at the candidate's workplace. The practical assessment must be submitted within 14 days of the exam date booked.

A unit certificate is issued denoting achievement of each unit.

COURSE INFORMATION LEAFLET

The certificate award parchment is issued upon completion of both units.

Additional information

This course is delivered by virtual classroom. Virtual classrooms are equivalent to face-to-face classroom courses, but delivered in an online environment.

You will need to put aside 5 consecutive days to attend this course.

Please note that NEBOSH Exams only run on certain dates throughout the year.
