

BTEC National Foundation Diploma in Information Technology Level 3

In a nutshell

Learners will develop a common core of IT knowledge and study areas such as; the relationship between hardware and software that form an IT system, managing and processing data, using IT to communicate and share information and computational thinking skills. You'll also look at the principles of designing and developing computer programmes to develop skills needed not only by the computing sector but in all sectors using technology in the modern world.

This course is for you if...

- ... You want a combination of IT knowledge and practical skills
- ... You are enthusiastic about technology
- ... You enjoy being creative

What will I be doing?

COURSE INFORMATION LEAFLET

The programme is designed to develop your technical skills in systems security, software development and computer games design.

You will study core units in the first year, and then progress to the Extended Diploma in the second year. You'll study a very wide range of IT topics, which could include:

Year 1:

- Information technology systems (exam)
- Creating systems to manage information (exam)
- Using social media in business
- Programming
- Web development
- Computer games development

Year 2:

- Cyber security and incident management (exam)
- IT service delivery (exam)
- IT project management
- Cloud storage and collaboration tools
- Digital 2D & 3D graphics
- Digital animation and effects
- Internet of things

You'll be assessed through coursework and exams in the first and second years and you'll achieve:

Level 3 in Computing

[Skills Activities](#)

[Maths and English](#)

Other relevant qualifications to enhance your skill set

What is expected of me?

To enrol, you'll need a minimum of 5 GCSEs grade C or above to include Maths/Numeracy and English/Welsh First Language, or appropriate Level 2 Diploma qualification at Merit grade with GCSE Maths/Numeracy and English/Welsh First Language at grade C or above.
